## Herd Record Evaluation

Select the one cow that best answers each of the following 10 questions. Use the Dairy Herd Record Evaluation sheets provided.

1. Select the cow that will transmit the highest expected breeding value to her offspring for milk. **867**
2. Indicate which cow is coded Do Not Breed and has the lowest current milk production. **118**
3. Indicate which cow has the highest index value that selects for the improvement of milk, fat and protein yield, somatic cell score and productive life. **923**
4. Select the dry cow which is the most over-weight. **849**
5. Determine the cow with the lowest expectation among the cows for the value of a future lactation's production, relative to the herd average. **848**
6. Which dry cow has produced the most pounds of fat during the current lactation? **841**
7. Which pregnant cow has produced the most pounds of milk in the current lactation? **703**
8. Which cow not coded a "C" for repro code has the most days in milk, but does not have a breeding date? **625**
9. Indicate the cow having the most impact on the somatic cell count in the bulk tank. **647**
10. Which 1<sup>st</sup> lactation cow has the highest projection of milk production for this lactation? **915**
